

# LANCELOT OLERIANA

**Address:** Mandaluyong City, Metro Manila, Philippines  
**Phone:** 09568757828  
**Email:** lancelotoleriana02@gmail.com  
**Website:** <https://lancelotoleriana-portfolio.netlify.app>

## SUMMARY

---

Innovative Full-Stack Web Developer with a passion for building high-performance web applications using Node.js and React.js. Expert in developing server-side logic, integrating RESTful APIs, and creating dynamic, responsive UI experiences. Proven ability to write clean code, manage state with Redux/Context API, and maintain relational and NoSQL databases. Adept at remote collaboration in fast-paced virtual office environments, committed to delivering scalable and performant code.

## TECHNICAL SKILLS

---

- **Front-End:** React.js, Redux, Context API, JavaScript (ES6+), HTML5, CSS3, TailwindCSS, Bootstrap
- **Back-End:** Node.js, Express.js, RESTful APIs, WebSockets, PHP, Laravel
- **Databases:** MongoDB (NoSQL), MySQL, PostgreSQL (Relational)
- **Tools & DevOps:** Git, GitLab, IIS, Unit Testing, Integration Testing, Technical Documentation
- **Methodologies:** Agile/Scrum, Responsive Design, Clean Code, Cross-browser Compatibility

## WORK EXPERIENCE

---

### Computer Programmer III, PhilHealth

December 1, 2025 - Present

- Design and maintain high-performance web applications using a modern stack including Node.js and React.js, ensuring high-quality server-side logic and front-end responsiveness.
- Develop and integrate RESTful APIs and third-party services to enhance application functionality and data flow.
- Build reusable front-end components in React.js, utilizing State Management (Context API) to ensure efficient rendering and a seamless user experience.
- Collaborate with the development team via GitLab and Agile workflows to turn complex requirements into scalable, maintainable code.
- Optimize application performance by identifying bottlenecks and ensuring cross-browser compatibility.

### Customer Service Representative, Foundever

Jan 8, 2025 - December 3, 2025

- Resolved complex technical escalations involving network connectivity and system access, maintaining a 95%+ resolution rate for high-priority incidents.
- Automated internal knowledge base workflows, reducing ticket escalations by 20% through proactive system maintenance and user-focused technical documentation.
- Managed user hardware assets and software permissions, ensuring secure and efficient end-user environments.

### Web Developer, Across Media IT Solution

April 15 - October 15, 2024

- Administered and optimized core ERP systems, utilizing SQL (PostgreSQL/MySQL) for complex database queries to improve response times.
- Documented technical specifications, code, and APIs for internal teams to facilitate future development and knowledge sharing.
- Managed deployment cycles in sandbox environments, ensuring seamless integration of new features with minimal user disruption.

## Business Assistant, Bicol University

October 2, 2023 - March 31, 2024

- Orchestrated logistical planning for tech-startup consortiums, managing vendor coordination and stakeholder communication for large-scale event programs.
- Proactively supported strategic planning for events and consortium initiatives by conducting detailed logistical research, vendor coordination, and anticipating potential challenges to ensure seamless operations.
- Acted as a primary liaison for event attendees, speakers, and startup consortium members, fostering positive relationships and clear communication that directly contributed to high levels of participant satisfaction and successful program outcomes.

## Software Engineer, Roompal

May 15 - December 2023

- Architected backend functionalities for a booking engine, focusing on clean code and server-side logic to increase processing efficiency by 15%.
- Managed relational database synchronization, ensuring data integrity and optimizing query performance for high-traffic operations.
- Wrote comprehensive unit and integration tests, reducing post-deployment issues by 20% and ensuring code robustness.
- Participated in code reviews and architectural discussions to share best practices and ensure system scalability

## Intern, Bicol University - SILI DELI

January 1 - May 30, 2023

- Developed dynamic user interface features for a co-working system, focusing on responsive design and user-friendly navigation.
- Implemented solutions to optimize database queries, improving system responsiveness for search and booking functionalities.

## EDUCATION

---

### Bachelor of Science in Information Technology, Cum Laude

Aug 2018 - July 2023

Bicol University, Legazpi City, Albay

## CERTIFICATIONS

---

- **React.js & Node.js Development** – Programming Hub
- **Google UX Design Professional Certificate (Focus on UI Experience)**
- **Google IT Support Professional Certificate**
- **JavaScript (ES6+) Certification** – Programming Hub
